

FIREFIGHTERS KIDS CAMP

Our Mission...

To provide young burn survivors with a fun and safe camp environment that encourages healing, personal growth and character development within a natural setting.

Our Vision...

A Camp Environment That Is Healthy and Safe... The health and safety of our campers is our top priority! Decisions regarding facility selection, program opportunities and staff selection are all made with the health and safety of our campers placed first and foremost. Camp operations are consistent with American Camping Association standards for this reason.

A Camp Environment Where Kids Can Be Kids... We strive to provide our campers an environment that allows them to interact with others who have had common experiences and challenges so that they can better realize that they are not alone in their injuries. Through peer interaction and role modeling, they can better gain the confidence necessary to make the transition from being a victim of a tragic incident to becoming a survivor!

A Camp Environment Full Of Encouragement... We believe in providing a camp environment that empowers our campers to challenge themselves both physically and mentally. We believe in promoting positive attitudes and fostering peer support – providing an opportunity for our campers to learn that they are capable of anything and everything they want to try.

Our Values...

We value positive attitudes and peer support.

We value trust and respect.

We value learning opportunities.

We value teambuilding and personal empowerment.

We strive to empathize and understand.

We expect personal accountability and responsibility.

We respect individuality and differences of opinion.
